A Surge of Cancer Cases Globally, study published in BMJ Oncology:-

- Over the past three decades, **almost 80% increase** (under 50 worldwide) have been diagnosed with cancer.

- For early-onset cancer, **increased from 1.82 million in 1990 to 3.26 million in 2019.**

- **Cancer deaths** in their 40s, 30s or younger

grew by 27%

The likely contributing factors are: “**Poor diets**, **alcohol and tobacco use**, **physical inactivity**, and **obesity**” in addition to genetics.

The rise of cancer cases has led to a discussion on the need for early screenings, a healthier lifestyle, and medical insurance that will provide better protection before you are diagnosed with cancer.
