

# OD-KFK — HOW IT WORKS

*(OD = Own Damage; KFK = Knock for Knock)*

## When OD-KFK is Apply

When your private vehicle (comprehensive policy) is damaged by another vehicle in an accident and you are **not at fault**:

- You claim the repair costs using your own insurer under the OD-KFK scheme.
- Your No-Claim Discount (NCD) is not affected.
- Your insurer handles the repair and subsequently recovers the cost from the other party's insurer at fault.
- The process is typically faster and more convenient, as you only deal with your own insurer.

## When OD-KFK Does Not Apply

OD-KFK claims are not applicable if:

- There is third-party bodily injury, regardless of who is at fault.
- The other party's vehicle is a commercial vehicle (e.g., bus, taxi, limousine, hire-and-drive).
- The other vehicle is foreign-registered or insured by a non-Malaysian insurer.

## Summary Table

Scenario & Policy Type	Application of OD-KFK?	NCD Impact
Not at fault, private car, comprehensive	Yes	No loss
Includes bodily injury	No	-
Other party is a commercial vehicle	No	-
Other party insured overseas	No	-

### REAL CASE EXAMPLE:

One user described an incident where their private car was hit by a tour bus. The insurer told them that OD-KFK does not apply in such cases, because buses are excluded, even though the user was not at fault. As a result, they had to claim under Own Damage, which reset their NCD.
